### Career Objective

As a recent graduate with a strong foundation in programming and hands-on experience from academic projects, I am eager to start my career as a software developer. I am excited to apply my knowledge and problem-solving skills to contribute to your company's success while continuously learning and growing. My goal in the next few years is to gain practical experience, refine my technical expertise, and develop essential skills for future career advancement.

### Academic Experience

**2021 - 2025 Student at Duy Tan University**

- Duy Tan University, Da Nang City
